TECHNOLOGY INFORMATION:

Low cost 3D scanners

Report for:
XXXXX,
XXXXXXXX

INDEX

1. Introduction	1
1.1. Technologies	1
1.2. Market	1
2. Low cost 3D scanning solution1: XXX - US\$2,500	2
2.1. System description	2
2.2. Available options	2
2.3. Features	3
2.4. Technical specifications	5
2.5. Functionalities	3
- System set-up	3
- System calibration	4
- 3D scanning process	4
- 3D data processing	5
- Results	5
2.6. Remarks	5
3. Low cost 3D scanning solution 2: XXX - US\$300	5
3.1. System description	5
3.2. Features	5
3.3. Required hardware	5
3.4. Functionalities	5
- Calibration set-up	6
- System calibration	6
- 3D scanning process	7
- 3D data processing	7
- Results	8
3.5. Remarks	8
4. Low cost 3D scanning solution 3: XXX - US\$ 2,700	9
4.1. System description	9
4.2. Features and functionalities	9
4.3. Requirements	9
4.4. Example of results	10
5. Low cost 3D scanning solution 4: XXX - US\$ 1,750	10
5.1. System description	10
6. Low cost 3D scanning solution 5: XXX - US\$ 2,500	11
6.1. Product description	11
6.2. Available options	11
6.3. Scanning process and data processing	12
6.4. Example of results	13
7. Final remarks	14
